Vehicle Summary

Vehicle information

Year, make, model: 1957 Ford Thunderbird red
VIN: D7FH161567
Odometer reading: 5,983 miles

Summary of vehicle condition

- The key positive aspects are:
 - The engine compartment features a 302 V8 engine with four barrel carburetor, tubular shorty headers, MSD ignition, power steering, power brakes, Offenhauser intake manifold, finned aluminum valve covers, finned aluminum air cleaner, polished air conditioning compressor, polished alternator, aluminum billet accessory aluminum radiator with dual electric fans.
 - Belts and hoses are in good condition.
 - The exhaust is in good condition.
 - No significant rust was seen.
 - No sign of significant collision or bottoming out was seen.
 - The front clip has been replaced for an aftermarket unit with rack and pinion steering, tubular A arms, and disc brakes.
 - The rear brakes have been upgraded to disc brakes.
 - The paint is in good condition.
 - The glass and weatherstripping are in good condition.
 - The stainless steel trim and chrome trim are in good condition.
 - The wire wheels are in good condition.
 - The material on the convertible top is in good condition.
 - The door panels, carpet, steering wheel, seats, dash, gauges, and dash pad are in good condition.
 - The caretaker states that all the gauges work except for the fuel gauge and the temperature gauge on the dash. There is a secondary temperature gauge in the center console that does work.
- There are no perfect vehicles. The key imperfections are (in priority order):
 - The tire date code is 2002, so the tires should be replaced before driving.
 - The engine would not start due to low battery during the inspection. The caretaker states that it started that morning.
 - All exterior lights work except for the low beams. When the switch is pushed the headlights go out.
 - There are minor leaks at the engine, rack and pinion, transmission, and differential.
