Process Overview
The inspection includes photos and a visual estimation of the exterior body, wheels, tires, engine compartment, trunk, interior, and undercarriage. There are no mechanical test of the lights, turn signals, gauges, infotainment system, HVAC, etc.

Vehicle Summary

Vehicle Information

Year, Make, Model1957 Ford Thunderbird (primer)

VIN1F107050300

Mileage reading82,500 miles

Summary of vehicle condition

- Overall, this is an incomplete project car that appears to be a good starting point for restoration.
- The key problem aspects are:
 - Engine compartment features and original fit/engine
- There are no perfect vehicles. The key imperfections are (in priority order):
 - If it is not known if the engine runs
 - The undercarriage is unfinished
 - Most of the stainless steel and chrome trim is not installed
 - Body panel alignment is poor and there are minor dents
 - The spare window and rear window are not installed
 - The body is painted in a primer grey
 - The tires have rips and will not hold air
 - The headlights and tail lights are not installed
 - The convertible top material is deteriorated
 - The door panels, carpet, radio, horn button, and headliner are not installed
