These details are taken from the custom build sheet which is included in the photos. It is possible that some items included in the original order were replaced, removed, or damaged. Bidders should refer to photos and inspect the unit in person prior to placing their bids. In addition, the buyer will receive a binder that includes manuals and manufacturer information for the items included on the trailer. This binder is available for inspection. Jack foot is damaged, appliances inside of trailer show use and wear. This trailer was set up in a semi-permanent manner and wired directly in to shore power, loose wires at the electrical box are from disconnection.

**Quantity: 1**
